# Gary Morgan - candidate for Lord Mayor - City of Melbourne 2016

**A simple request** - Vote for **Gary Morgan** and **Michael O'Brien** because Melbourne Council needs a leadership change - **urgently!** **Public Trust in the Melbourne Council has been seriously eroded.**

Eight years with Lord Mayor Robert Doyle and his 'Voting bloc' is enough.

**Melbourne needs to move on**

**This is precisely why Gary Morgan and Michael O'Brien and TEAM MORGAN are seeking election.**

If elected, Lord Mayor Gary Morgan and his Deputy Michael O'Brien will **govern the Melbourne City Council as an efficient, respectful 'Board'** - adopting best-practise governance and working with **all** elected Melbourne Councillors.

**TEAM MORGAN** will work to make Melbourne a prosperous, fair and 'liveable' city for ratepayers, residents, businesses, workers, and the wider community.

**TEAM MORGAN**  
*A City Council that Works!*

**Melbourne Council Election Issues include:**

**Queen Victoria Market:**

- Queen Victoria Market should be restored but remain as is - a heritage fresh food market. It must not be over powered by surrounding 'high-rise' developments, proposed by Robert Doyle who has no expertise in property development.

**Homelessness:**

- The crisis in homelessness in Melbourne must be urgently addressed. Those people sleeping in the streets must be properly catered for.
- Melbourne Council needs to take more strategic action. Funding is only one option. Other options must include working more with social service providers to establish 'causes' and 'remedial actions'.

**Administration Cost Blowout:**

- **Melbourne Council rates must be cut by 5%** made possible by a significant cut in Melbourne Council administration costs including staff numbers.
- The proposed \$100+million new office tower for Council administration must be stopped - plans should NOT be proceeding as it hasn't yet been publicly announced.
- Melbourne Council must focus more on up-grading the many commuinty services they are responsible for.

**Heritage:**

- **TEAM MORGAN** is not against 'high-rise' development however there must be strict height limits including protecting heritage buildings which must NOT be compromised. For instance the MCG Hotel in East Melbourne, home of Australian Rules Football, was **partially demolished without a permit - an illegal act completely ignored by Lord Mayor Robert Doyle.**

**Council Governance:**

- The City of Melbourne Council 'Code of Conduct' must be changed so the Lord Mayor and Councillors cannot do as Robert Doyle has done as Lord Mayor during the last 8 years. Robert Doyle was found to have used his City of Melbourne business credit card claiming \$28,000+ were Council expenses when they were his private expenses.
- Lord Mayor Robert Doyle and his 'Voting bloc' were 'conflicted' (on at least 18 occasions) and had to exit Melbourne Council meetings - unable to vote because they had accepted donations from Property Developers, some of whom were owned overseas. There was not a Council quorum so the decisions were left to Council Officers not elected Melbourne Councillors. **An unacceptable situation.**
